EDUCATION

THDC-IHET, Tehri Garhwal   10/2021 – 06/2025
B.Tech CSE   *76%(Till 6th sem)*

All Saints Convent School, New Tehri   04/2020 – 05/2021
Intermediate - PCM with Computer   *89%*

All Saints Convent School, New Tehri   04/2018 – 05/2019
Highschool   *90%*

About Me

I am a passionate software developer with a positive mindset, currently in my final year of graduation, set to complete my degree in six months. I approach challenges as opportunities to learn and grow, and I am eager to apply my skills in real-world scenarios. As a creative problem solver, I strive to deliver high-quality code that aligns with business needs and enhances the user experience. I am self-motivated, with a growth mindset, always seeking opportunities to learn, improve, and refine my craft.

SKILLS

- GSAP
- Tailwind CSS
- JavaScript
- Bootstrap
- HTML
- RestAPIs
- React
- CSS
- Git
- MONGODb
- MySQL
- Node js

PROJECTS

Uniyal skylink | React,Email JS, Geonavigation,Tailwind css and daisy ui

- Uniyal Sky Link is a platform providing geonavigation services across Uttarakhand, enabling users to locate Wi-Fi connections and important landmarks in the region.
- Worked as a frontend developer, focusing on web app responsiveness, integrating geolocation features, and designing interactive maps with location markers for specific areas like Tehri Garhwal.

Offline Learning System | ReactJS, Express, MongoDB, TailwindCSS, Socket.io

- The Offline Learning System allows students and teachers to connect, share resources, and communicate, even without continuous internet access.
- Worked as a full-stack developer, actively implementing real-time messaging features and user profile functionalities to enhance the interaction between learners and tutors.
- Also contributed to backend development and integration with location-based services to enable users to find tutors within a 10km radius.

Learning Management System | ReactJS, Node.js, Express, MongoDB

- Developed a responsive and feature-rich LMS platform using ReactJS for the frontend and Node.js with Express for the backend.
- Ensured seamless user experience across all devices by optimizing the interface for both mobile and desktop users.
- Integrated payment gateway.

Food Blog|React, Appwrite, Tailwind CSS, Netlify

- Worked as a full-stack developer, focusing on building and optimizing a responsive food blog application with features like recipe listings and user authentication.

- Integrated backend services using **Appwrite**, enabling smooth data management and secure user interactions.

- Developed and designed multiple components, such as dynamic forms for submitting recipes, improving the overall user experience.

- Deployed and managed the application using **Netlify**, ensuring seamless integration and deployment workflows.

[Online Compiler](#)|React, Node.js, Express, Tailwind CSS,

- Worked as a full-stack developer, focusing on building and optimizing a responsive online compiler application, allowing users to write, compile, and run code in real time.

- Integrated backend services using **Node.js** and **Express**, enabling real-time code execution and error handling.

- Developed multiple components for language selection, code input, and real-time output display, enhancing the overall user experience.

[LeetCode Achievements](#)

- Solved over **450 questions on LeetCode**, strengthening my problem-solving and algorithmic thinking skills across various domains including arrays, dynamic programming, and data structures.

- This experience has significantly improved my coding efficiency and understanding of optimal solutions in competitive programming and real-world scenarios.

WORK EXPERIENCE

[Intern](#) | Tia   **06/2024-Present**

- Working as a Full stack developer.

- Technology Used: , React.js, JavaScript, TaiwindCSS, RestAPIs, Github, C,Express,GSAP,NODE js,Mongo Db,MYSQL,Jira,Trello.

TECHNICAL SKILLS

Languages: ReactJs, HTML, CSS, JavaScript, Java, TailwindCSS, C++, Express, MongoDB, MYSQL.

Developer Tools: Postman, Git, Github, GitBash, Figma, VsCode, VisualStudio(Dotnet)
